

3D Model Available

Regulators are shipped with a flush-out plug for maintenance only. Installing this plug will force the regulator open so that material flows freely through. While installed, **outlet pressure will be equal to supply pressure**. This is used to flush debris from the regulator.

GPR5000-3000-1250:

Material pressure regulator has maximum primary pressure of 3,000 psi and controlled secondary pressure between 400 and 1250 psi. Inlet and outlet ports are 3/8 NPT. Includes mounting bracket for easy panel mounting. Also includes a 0-2,000 PSI output pressure gauge.
